PROJECTS

Jump Monke Jump

[github](#)

Multiplayer AR Platformer

- **Roles:** Lead Programmer
- **About:** An android application that uses the camera's AR capabilities to place a competitive, 2-player platformer game in the real world.

Dusty Frontier

[github](#)

2D Western Platformer

- **Roles:** Designer, Programmer, Artist
- **About:** A 2D western platformer project that further developed my game development experience through better levels, mechanics, player movement, and enemy control.

Shadow Adventure

[github](#)

First Game Project

- **Roles:** Designer, Programmer, Artist
- **About:** A 2D platformer project that focuses on learning different mechanics, how to use them to create levels around those mechanics, and post-processing.

Honors and Accomplishments

Boy Scout Troop 15 | Eagle Scout

12/2015

- Received donated computer parts to build a set of computers
- Donated the built computers to a senior home located in Oakland, CA
- Hosted several sessions that involved teaching groups of seniors various computer applications that would be beneficial for communication and everyday use
